The screenshot displays a web interface for configuring local protection. At the top, there are control buttons: '启用' (Enable), '禁用' (Disable), '移动' (Move), and '本机防护' (Local Protection). A search bar is present with the placeholder text '请输入查询内容'. Below this is a table with columns: '源安全区域' (Source Security Area), '源地址' (Source Address), '目的地址' (Destination Address), '服务' (Service), '动作' (Action), '描述' (Description), and '操作' (Action). A single entry is visible with the following details:

源安全区域	源地址	目的地址	服务	动作	描述	操作
t_local	any	any	本地服务,icmp	permit	允许访问本机服务的流量,但限制每主机速率为每秒600个报文	<input checked="" type="checkbox"/> 编辑

On the right side, there is a '本机防护' (Local Protection) sidebar with options: '新增' (Add), '删除' (Delete), '优先级' (Priority), and '名称' (Name). A table below shows a single entry with priority '1' and name 'limi'. A green dropdown menu is open, listing various security features: '安全策略' (Security Policy), '策略配置向导' (Policy Configuration Wizard), '策略优化' (Policy Optimization), '策略生命周期' (Policy Lifecycle), '端口扫描' (Port Scanning), '流量学习' (Traffic Learning), 'NAT策略' (NAT Policy), and '安全防护' (Security Protection). At the bottom, there are additional settings for '阻断所有访问本机' (Block all access to this host) and 'ARP防护' (ARP Protection) with a '流量' (Traffic) slider.

The screenshot displays a web management interface. At the top, there is a navigation bar with icons for '快速上线' (Quick Online), '策略向导' (Strategy Guide), '客服' (Customer Service), and 'admin'. A dropdown menu for 'admin' is open, showing 'admin 超级管理员' and a '修改密码' (Change Password) option circled in red. Below this, there is a search bar with the text '请输入查询' and a '退出' (Logout) button. The main content area features a table with columns for '角色' (Role) and '描述' (Description). The table contains one entry: 'admin 超级管理员'. To the right, there is a sidebar with a '管理员' dropdown menu and a '新增管理员角色' (Add Admin Role) button. Below the table, there are three buttons: '诺奇云', '特征库升级', and '系统维护'.

角色	描述
admin	超级管理员
