Contents

AP

The screenshot shows a terminal window with the following content:

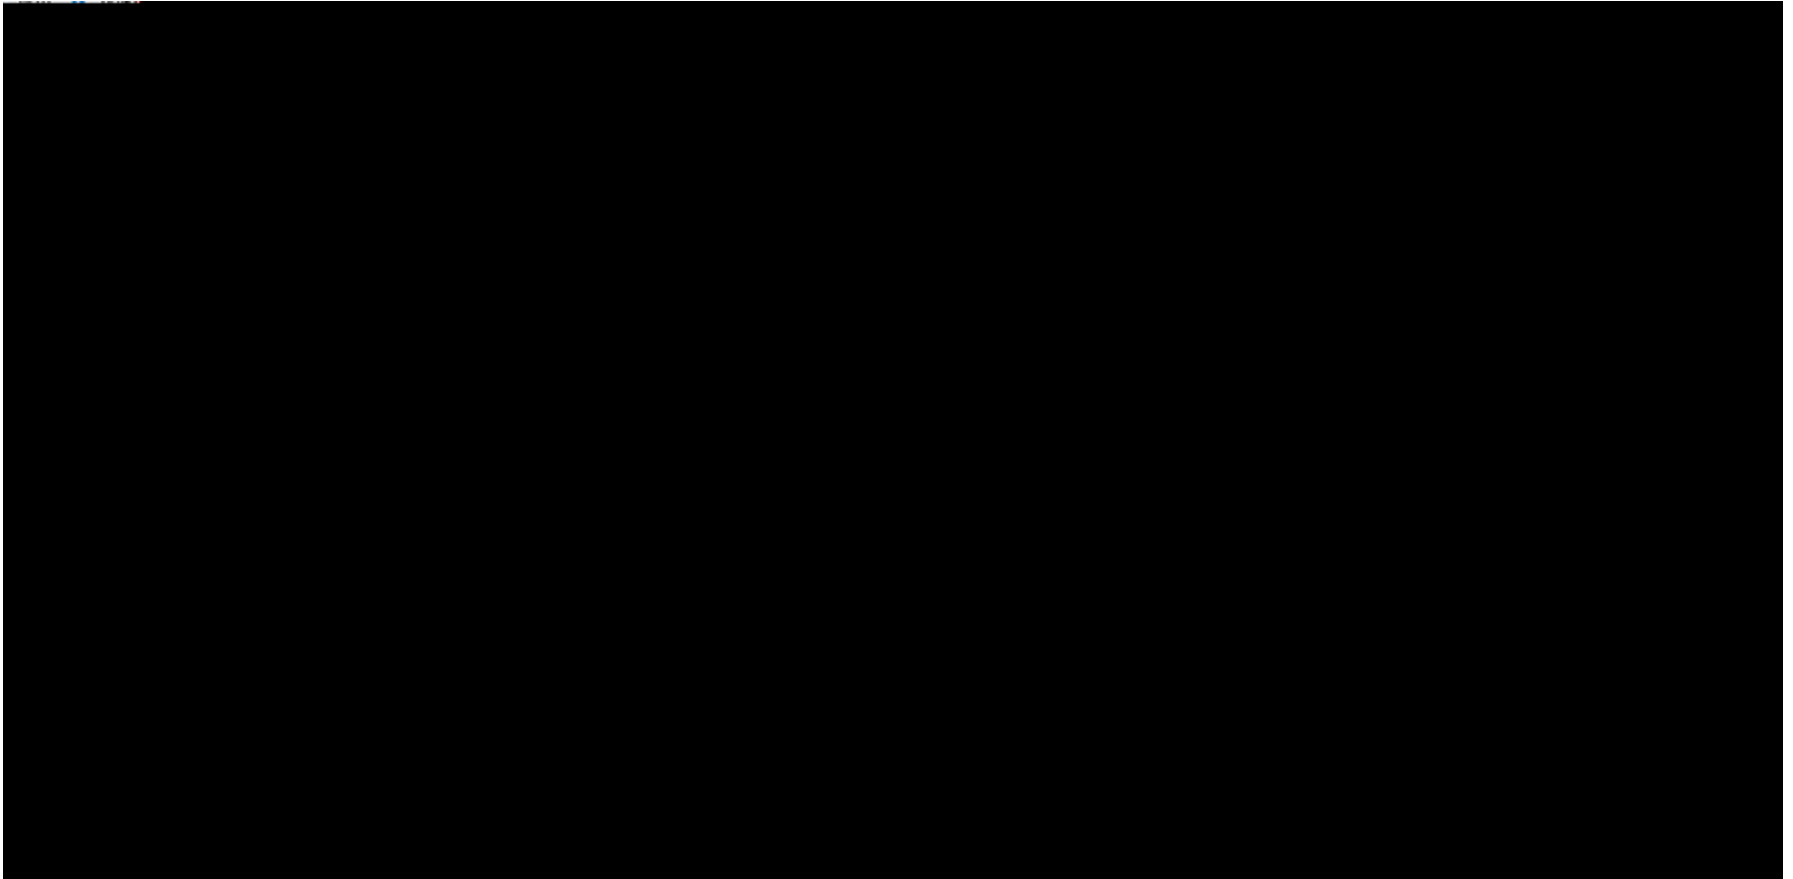

```
WS18000-1B11#show ac-config client | in mu
===== show sta status =====
AP : ap name/radio id
Total Sta Num: 39
```

A red arrow points from the text "第三频" (Third Frequency) to the terminal output.

Below the terminal output, there is a table with columns: IP Address, Mac Address, Radio, and Signal Strength. The first row shows: 192.168.1.1, 08:00:20:0c:00:00, wlan1, -70dBm.

At the bottom right, there is a red arrow pointing to the text "mu终端" (mu terminal).
